

Rockyou!

Rockyou is a very popular wordlist. The challenge gave a zip file with password needed so I automatically know we need to use zip2john. These was the command I used.

```
(zeqzoq@DESKTOP-TVA03PG) [/mnt/c/Users/hzqzz/Downloads/stoutctf]
$ zip2john RockYou.zip > rockyou.hash
ver 1.0 efh 5455 efh 7875 RockYou.zip/Flag.txt PKZIP Encr: 2b chk, TS_chk, cmplen=55, decmplen=43, crc=70C3FC2A ts=9A2B
cs=9a2b type=0

(zeqzoq@DESKTOP-TVA03PG) [/mnt/c/Users/hzqzz/Downloads/stoutctf]
$ john --wordlist=/usr/share/wordlists/rockyou.txt rockyou.hash
Using default input encoding: UTF-8
Loaded 1 password hash (PKZIP [32/64])
Will run 4 OpenMP threads
Press 'q' or Ctrl-C to abort, almost any other key for status
Passw0rd123 (RockYou.zip/Flag.txt)
1g 0:00:00:00 DONE (2024-12-19 09:27) 5.882g/s 12384Kp/s 12384Kc/s 12384Kc/s SALAMUN..PECHI
Use the "--show" option to display all of the cracked passwords reliably
Session completed.
