

Nuclear codes

In page source (right click + page source) there's code.php.

```
<form action="codes.php" method="POST">
  <div class="input-group">
    <label for="username">Username</label>
    <input
      type="text"
      id="username"
      name="username"
      placeholder="Enter your username"
      required
    />
  </div>
</form>
```

Then go to the directory by adding /codes.php at the challenge website
