

Abandoned Airwaves

Every osint challenge I try to reverse search the image. Click on every one of them to get the exact location place

One of them is <https://www.istockphoto.com/photo/abandoned-building-in-the-chernobyl-exclusion-zone-gm1181734175-331558984>

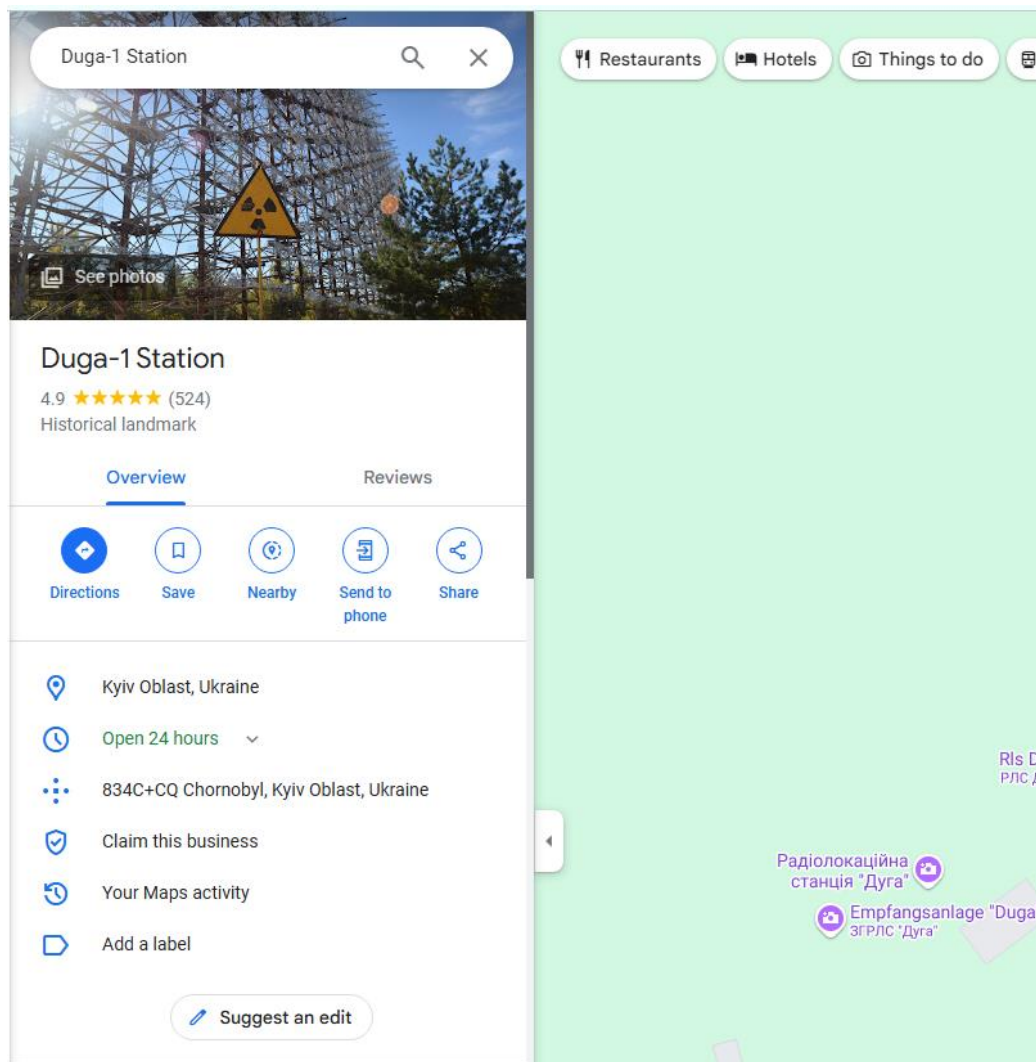

There are station name in the description. Then bruteforce osint flagcause there are no mentioning about what the specific format is.

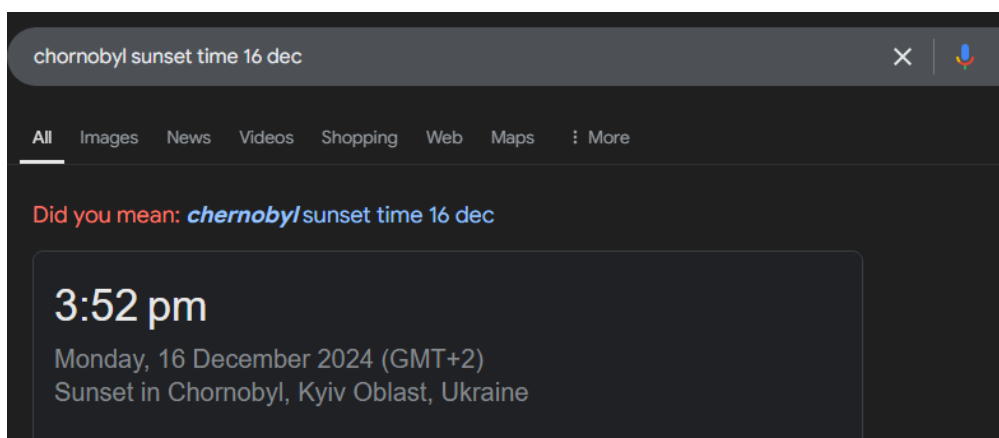

Flag: Duga-1 Station

Abandoned Airwaves pt.2

Search the location at google map and its in chornobyl

Then just google the time. For osint challenge, google is your best tool.
